Eric,

The main reason is because the floor is gravel and it would be difficult to roll the trash can to be emptied.

I tried reaching out to Alan, but have not heard back from him yet.

Here's what I have so far.

The Chamber trash can. It's a 3-yard bind and is currently underutilized and is only picked up once per week. Elise has already given me permission to swap it out for a 4-yard (same dimensions as a 3-yard but taller and higher capacity) and increase the frequency.

The Topaz building has a space where I can add a trash bin there.

I think ideally, I just need one more location. I can start with 4 days per week and increase the frequency if I need to.

What do you think?
